FOR RELEASE
March 9, 1981

UMTA Technical Notice 1-81

The U.S. Department of Transportation's Urban Mass Transportation Administration released today a directory of 339 regularly scheduled, fixed route local transit operations serving in rural areas. The compilation is an update of TN #1-80 dated February 18, 1980 and was prepared from data obtained through the American Association of State Highway and Transportation Officials. (AASHTO).

AASHTO's Standing Committee on Public Transportation is comprised of at least one person responsible for public transportation in each of the fifty states. Members of that committee are identified on page fifteen.

State representatives responsible for the administration of Section Eighteen Formula Grant Programs are identified on page fourteen.

Local transit operations that carry passengers within and into the 279 urbanized areas of over 50,000 population appear in Technical Notice #2-80 dated August 1, 1980.

As shown in the summary on page thirteen, 1,736 buses are required to meet scheduled rural service. Fleet size would be a larger number. Extra equipment retained for charter, school contract, intercity service or spares for maintenance is excluded from this survey.

Including data from TN #2-80, a summary of transit service nationally, insofar as buses are concerned, appears to be:

| | | TRANSIT OPERATIONS (BUS) | | | |
|---|---|---|---|---|---|
| | | Ownership | | | Buses Required |
| Survey | Population | Private | Public | Total | for Peak Service |
| TN #1-81 | Rural | 71 | 267 | 338 | 1,736 |
| TN #2-80 | UZA's over 50,000 | 340 | 329 | 669 | 42,044 |
| | TOTALS | 411 | 596 | 1,007 | 43,780 |

Should any recipient observe omissions or inaccuracies, a letter of correction should be addressed to UPM-45, Transit Industry Liaison, Room 6432, 400 Seventh Street SW, 202-426-9157.

SOURCE:

Members of the Standing Committee on Public Transportation of the American Association of State Highway and Transportation Officials (AASHTO), identified on page 15, responded to requests for information concerning transit in their respective States.

COLUMN HEADINGS:

(1 & 2) States are listed alphabetically, along with the proper names of the fixed route rural transit operations in that state, also listed alphabetically by post office address.
If the management of a transit operation is by contract with one of the management firms that dominate this field, that firm is identified by the symbols ATC for the American Transit Corporation of St. Louis MO; ATE for ATE Management & Service Company of Cincinnati OH; and McD for McDonald Transit Associates, Inc., of Ft. Worth TX.

(3) Population statistics (1970 census) were taken from the Rand McNally Road Atlas, Fiftieth Anniversary Edition. Figures are for one or more smaller cities served, for entire counties, or as estimated by State DOTs.

(4) An X in this column indicates the operation is a Transit System Member of the American Public Transit Association (APTA) according to the 1981 directory of members published by that organization.

(5) The maximum number of vehicles on the street in regularly scheduled service. This figure is not to be confused with fleet size, which would be a larger number.

(6) An X in this column indicates that the operating assets are privately owned, in whole or in part, by the operator.

(7) The contact person may be the president, general manager or owner.

(8,9 & 10) The mailing address of the person identified in column 7.

(11) The telephone number of that person.

## THE AMERICAN PUBLIC TRANSIT ASSOCIATION

1225 Connecticut Avenue NW
Washington DC 20036

Members of the American Public Transit Association (APTA) include North American organizations responsible for planning, designing, constructing, financing and operating transit services. In addition, its members include business organizations which supply products and services to the urban transit community, academic institutions, and public interest groups.
